**Subject:** MLPAComments: Post Letter's, emails and comments

Please update the Public Comment link's on the MLPA F&G web page to post all comments received whether via email or by letter on this process. I would break the items into subject matters such as Master Plan Framework, Goals and Objectives, Regional Profile , general comments/question , etc. and what ever other category you might have. The replies from MLPA Initiative staff should also be posted along with the questions and comments. It is sad to see that the last post was April 10, 2005. The text about Public comments (see below) is of great interest but we need to make sure of the follow through. Maybe we are moving to fast to keep up with this all. Does your recetn job announcement cover web page management and updates? The transparency and "Public Process" is seriously questioned on this matter! What can we do to fix this matter?

Thank You.

From the F&G MLPA web page:  
Found at:

<http://www.dfg.ca.gov/mrd/mlpa/publiccomments.html>

"Public participation is an essential element of the MLPA Initiative. Throughout the initiative, the general public has had, and will continue to have, regular and frequent opportunities to observe and comment on the activities and products of the initiative, including through written comments. "

"Written comments submitted to the MLPA Initiative are linked below in reverse chronological order and are posted to this page within two business days if sent electronically via e-mail. Comments will be posted as soon as possible if sent by facsimile or mail. If you submitted comments and they are not listed below, please contact or re-send your comments to Melissa Miller-Henson via [e-mail](#) or 916.654.2506). "
